

Municipal Wells

Water Quality

- Most of the site falls within the WHPA-D (25 years of travel time) with a the eastern portion of the site within WHPA-C (5 years of travel time) for the City of Guelph. The areas of fuel handling and storage and the Asphalt plant are located outside of WHPA-C and are permitted to occur in a WHPA-D area. The on-going monitoring will continue to ensure the protection of groundwater quality for the Municipal Wells.
